1. **UMAT** Undergraduate Medicine and Health Sciences Test. Any yr 12 student interested in the following degrees must complete UMAT test: MONASH: Medicine, Pharmacy, Pharmacy/Commerce, Physiotherapy, UNI MELBOURNE: Oral Health, LA TROBE Health Sciences (Dentistry), Oral Health Sciences. For further details go to careers board or [http://umat.acer.edu.au](http://umat.acer.edu.au).

2. **WORK EXPERIENCE** - Students and parents are again reminded of 25 May deadline for returning forms. It is the student's responsibility to inform me if he feels he cannot meet this deadline.

3. **DELOITTE ACCOUNTING CADETSHIP**. Great opportunity to combine tertiary study and employment with an international accounting firm. For further details see careers board or go to [www.graduates.deloitte.com.au](http://www.graduates.deloitte.com.au). Any applicant is strongly advised to see Mr. Rosel before submitting application.

4. **AGE CAREERS EXPO** - Another reminder. Year 10 and 12 students are especially encouraged to attend. Further details can be found in careers room or yr 12 careers board - including question sheets to take!

5. **ASSOCIATE DEGREES** - This relatively new qualification seeks to give students a second chance to secure a university degree. As long as the tertiary student passes his two-year associate degree, he will be guaranteed entry into the third year of the Bachelor Degree! Associate degrees are offered in areas such as engineering and IT. Unlike a TAFE diploma (another very popular means of trying to secure university entry) a pass alone will guarantee entry into a degree. Additionally, the student will complete his Bachelor Degree in the same amount of time as a student who enters into the same qualification straight from yr 12. The associate degree is more focused on the foundations of an academic discipline than the Advanced Diploma, with less emphasis on industry-specific workplace competency.

6. **INTERESTED IN FLYING** - A Qantas pilot has kindly agreed to give his time to speak to any student with a genuine interest in flying. See Mr. Rosel for further details.

7. **HOLIDAY YR 12 CAREERS APPOINTMENTS** - Students and parents are more than welcome to make an appointment for the upcoming term break. Such holiday appointments (not wedged between classes or at the end of a busy day) are often very productive for the student, parent and careers adviser!
